seit 1897

Working together for success

For over 100 years the Dania Manufaktur für Farbe & Wohnen has been dedicating itself to the world of the home and fine interior design. In implementing a wide range of projects for our customers we have recognised how important it is that our clients get excellent value for their money, but also, if so desired, that they have a general contractor coordinating all their needs. To meet these expectations we offer you □□□□□□ the following inspirations.

Building owners have many ideas and concepts that require a professional approach. Often the search for the right partner begins with the selection of the parcel of land, and extends to the planning, coordination and construction phases of the building, including the transformation of the project into a turnkey property.

Of course, no one can be the very best in everything or have comprehensive special expertise. That is why we collaborate with a network of specialists from every area of construction, interior design and architecture. We know from years of experience of working behind the scenes who the best in each industry is. And we are happy to share that information with you.

In our showrooms you will get a unique opportunity to view the wide range of

DANIA

Manufaktur für Farbe & Wohnen
seit 1897

possibilities of interior design. Not only do we have over 600 samples of wooden flooring on display, but also over 100 oversized samples of wall covering designs. This is the most comprehensive and widely varied display of its kind and allows us to demonstrate to you first hand the innumerable possibilities for combinations and compositions. Let our showroom help you in your decision-making.

By the same token, we see ourselves as a key partner for architects, planners and building owners, be it as a specialist for colour, interior design and wooden flooring or as your personal consultant and general contractor for the overall implementation of your own concepts.

Take all the time you need and let us know when you would like to come. That way we can implement your ideas and work together to achieve success for you.

We invite you to come and let yourself be fully inspired. I would be very happy to welcome you here with us.

Sincerely,
Michael R. Dania

Thirty spokes share the wheel's hub; it is on the space where there is nothing that the wheel's usefulness depends.

We turn clay to make a vessel; it is on the space where there is nothing that the vessel's usefulness depends.

We pierce doors and windows to make a house; it is on these spaces where there is nothing that the house's usefulness depends.

Therefore just as we take advantage of what is, we should recognize the usefulness of what is not.

Discover the Dania Farb- & Wohnwelt with Vienna's most comprehensive collection of wooden flooring

To meet the needs of our clients we have assembled an exclusive collection of samples for wooden flooring, flooring, painting, stucco, interior textiles, carpeting, sunshades and murals. Moreover, we regularly attend international trade fairs, always on the lookout for new trends and manufacturers – to serve you better.

As general contractor, the Dania Manufaktur für Farbe & Wohnen provides you with complete consulting services and the professional implementation of your project together with our partners. Thanks to our network, we always remain abreast of contemporary trends when planning, developing and carrying out design projects.

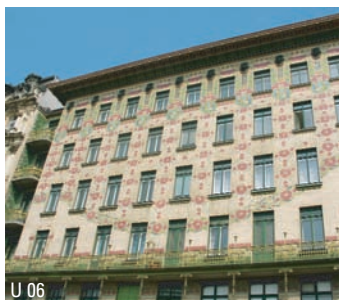

Our years of experience guarantee you the utmost in peace of mind.

What we offer

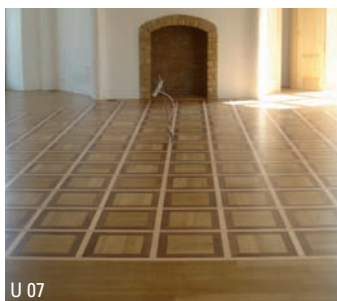

Painting

The iron railings of the majolica house designed by Otto Wagner and protected as a historical monument have been restored to their original "Otto Wagner" green colour.

Wooden flooring

All of the parquet flooring in the Esterházy Jagdschloss hunting seat in Burgenland was redone. The selection of wood, the installation work and the samples were all based on traditional designs.

Interior textiles

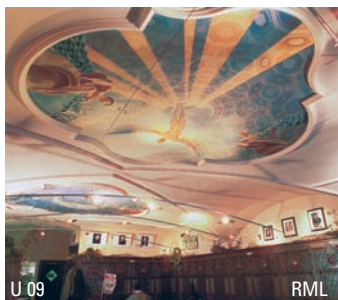

The harmonisation of colour nuances and the selection of just the right materials were the criteria for the interior textile design, the flooring and wall coverings at these renowned law offices.

DANIA

Manufaktur für Farbe & Wohnen
seit 1897

Fresco gallery

At the Andechser Bräu brewery in Munich, we worked together with the internationally renowned artist Rainer Maria Latzke to create the frescoes in the studio and subsequently attach them to the ceiling.

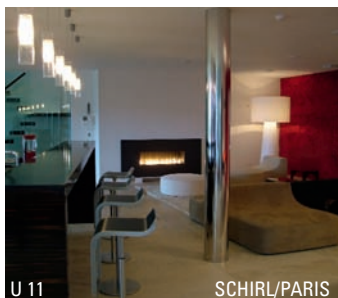

Artificial stone flooring

A self-levelling floor covering was chosen for the Minotti flagship store located in the heart of Vienna to underscore the use of clean lines. This kind of flooring can be applied seamlessly for areas up to ca. 500 m².

General contractor

This villa in County Cork, Ireland, was built and its interiors fully appointed in the record time of three and a half months, just in time for the birth of the owner's son.
