Carpeting

DANIA

Manufaktur für Farbe & Wohnen
seit 1897

Personalised comfort wherever you go

Carpeting conveys a pleasant ambience and is an especially convenient flooring option if cared for properly. Carpets capture dust and are easy to clean. Everywhere where a living space requires functional flooring or for those who insist on the merits of going barefoot, carpeting exudes warmth and comfort. Colours and designs can be adapted to meet your personal tastes, making carpeting a flexible and very individual interior design choice.

Flexibility and elegance

Everywhere where stone or wooden flooring is, for various reasons, not possible or not desired (weight, installation height, differences in surface levels, etc.) floor coverings offer an attractive alternative. They are especially sturdy and ideally suited for high-traffic areas. Our numerous collections offer you a wide selection of choice.

Modern wall coverings

Unlike mural paintings, wall coverings open up more than just colourful design options, but also offer surface textures that make your room something special. Wall coverings are made of a wide range of materials (silk, leather, glass beads, feathers, gold leaf, aluminium, wood, etc.) and come in a wide variety of tasteful designs. In addition, they are, as a rule, washable and therefore very easy to take care of.

Definitive accents and functional protection

Curtains perform a wide array of functions: They block out light and the sun, screen your home interior from view and create a pleasant ambiance. In addition, they significantly improve indoor acoustics. Curtains are perfectly suited for use as an interior design option, turning any room into an oasis of comfort. Curtains are timeless and are always in season.

Comfort and elegance

Choosing just the right combination of interior textiles is a very delicate matter. In so doing, rooms can be made to reflect individual taste and meet simple, everyday functional needs. Furniture fabrics are easy to take care of and wear-resistant. Design and the individual properties of each kind of material, such as flame-resistant, abrasion-resistant and pleasant to the touch, are key criteria for the choice of fabrics.

Interior artistry

Window treatments can mean so much more than just a place to hang up curtains. They are completely independent elements that make a definitive statement in design, colour and form. We use a wide variety of the most elegant materials for window treatments that match any design style, be it rustic, classic, traditional or modern.

Sunshades and Blinds

DANIA

Manufaktur für Farbe & Wohnen
seit 1897

Just the right amount of light

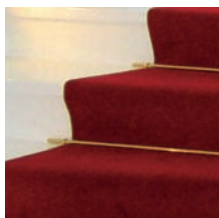

By altering levels of transparency and openness, sunshades can be used to let in just the right amount of light. Varying atmospheres of complete openness to very intimate cosiness can be created by regulating outside light with just one touch.
