Project management

Customer needs analysis

Your personal style has priority.

Design concept

WENZL is renowned for its unique interior design concepts.

Visualisation

We present to you our design concepts as a printed folder, plot or as a 3D-animated film in order to ensure transparency and clearness.

Planning in detail

In co-operation with selected partner companies and suppliers we take care of the entire interior design. We are also pleased to work with the tradesmen of your confidence.

Assembly

Our assembly staff is among the best in our line of business.

WENZL

3D visualisation

Clear and transparent visualisation of your future lighting and design concept is one of our key services. Our aim is to allow you to concentrate on details and your personal needs during the planning phase. It is thus easy for you to visualise your new interior design concept.

After approval of the design concept, we work out the detailed plans and bill of materials. We are happy to provide you with detailed installation plans for your tradesmen upon request.
